

Mapping & Geospatial Workshop II

Thursday, April 7, 2016

8:30 am-3:00 pm

ATTENTION

Southern Tier Teachers!

The New York Geographic Alliance has a grant from NOAA as part of the BWET Chesapeake Program. Our job is to train teachers in the Susquehanna Region in watershed education. Last November, we held the first Mapping & Geospatial Workshop, and we are back for an encore!

Activities will include using topographic maps and aerial imagery, interpreting Pictometry images, ArcGIS basics and story maps. There will be two sessions, one for beginners and one for intermediate (aimed at participants from the first workshop in November).

INTERESTED? Email Tim McDonnell (tmcdonnell@monroecc.edu) or call the NYGA Office at 585-292-2398.

Location:

TST BOCES

555 Warren Road
Ithaca, NY 14850
Dexheimer Building A
Room A-14
